¹ This dataset does not align with prior reports because GNU conducted a comprehensive data cleanup in Spring 2026 to remove corrupted records. As a result, the data presented below should be considered the authoritative and accurate version, despite any discrepancies with earlier documents.

² Retention rates for associates and bachelor's programs are fall-to-fall based on first-time, full-time status.

³ The completion and graduation rates for certificates, associate degrees, and bachelor degrees are measured at 150% of the expected time for completion (e.g., bachelor degree rate is six years from the first enrollment for first-time, full-time students).
